Call case, the sound case

Created by Skpad, CALL CASE is the first case with a speaker inside (ultra slim with a high-quality sound) embedded in its thickness.

Ultra thin embedded speaker (2 mm) with high quality sound, the speaker Skpad has an integrated battery which can be recharged with its USB cable (included). A few minutes of charge will give you great autonomy. Plug the mini Jack of the case to the headphone jack plug of your MP3, iPod or iPhone and share your music. The mini cable also acts as an FM antenna to listen to FM frequencies in very good conditions.

- High-quality speaker + amp
- Battery rechargeable with its USB cable (included)
- Autonomy 2 hours
- LED red & green
- Custom made
- Magnetic clasp
- Inserts for credit cards
- Removable and rotating belt clip
- Maxi bass
- Compatible with USB, AC chargers and car charger (sold separately)

Available for iPhone & iPod...

Skpad PARIS

Cover 100% Waterproof
for all GPS, smartphones, MP3 and iPhone

The ideal scratch cover to hold and see your device on your handlebars.

- Supplied with rain-cover to put in heavy rain for an equity IPX7 100% waterproof.
- For device ≤ 15 x 10 x 2.5 cm.

Compatible with all handlebars of motorbike, bicycle, ATV, scooter... sports, the Pan European, roadsters, Cross... including all BMW crossing straps.

Air Tube, the headset to put on the speaker

Audio air system allows you to hear the sound from the GPS speaker or devices without any audio out plug.

Put the flat microphone on the speaker of your device and keep it in place with the Velcro patch. Put the headset in your ear... that's it... the instructions of the GPS come with an exceptional sound quality, even at high speed.

Better than the Bluetooth, this headset does not generate unwanted disconnections and does not need to be recharged during the trip.

- Length of air duct 1.1 m
- Black and blue sound scratch (5.5 cm diameter)
- Clear silicone headsets

Compatible with all devices equipped with a loudspeaker: GPS, radar warning system, MP3.

Ideal for the famous TomTom ONE who has no headphone jack.

Headsets ultra flat Velcro scratch

The least expensive and the easiest way to listen to your music or your GPS in your helmet.

Put the Velcro scratch headset in your helmet and plug them into your device.

Extremely thin, you will forget them thanks to their comfort and quality, even at high speed.

Very good quality of sound.
